

# What is "Expanding the Vision"?

"Expanding the Vision" is the theme of our capital campaign for the construction of a new educational building at Cedar Hills. The overall goal is to raise \$600,000 with the initial goal of raising \$200K by the end of the calendar year 2022.

## Why is "Expanding the Vision" needed?

What God has done and is doing through the ministry of Cedar Hills is beyond incredible. In 2021, God led us to begin a Christian school. The school has grown, continues to grow, and is nearing full capacity. We are now in need of additional classroom space so that we can provide educational options for kids grades pre-school through high school. Along with classrooms, the building will house office space, a commercial kitchen, and a lunchroom large enough to service the student body. The facility will also provide the space needed to serve after-school care, kids summer camps, those with disabilities and special needs, and other areas within our community with which we can be a help.

## How can you help?

We need \$200K to begin this process. We have \$110K that has already been given. Therefore, we need \$90K before the end of the calendar year. Would you consider giving towards this need? Your gift is an investment in the thousands of lives that will be impacted through the love and education they will receive in this building. All gifts are tax deductible. You can give right now through our secure giving portal. Simply click on the "GIVE" button below to give now.

## The Construction Plan
